COMMENTS/FEEDBACK

43) Please provide any additional comments or feedback.

202807: Chris was a great TA, very clear in explaining things, really knowledgeable about the material and helpful when asked questions, without coming out and giving all the answers - he encouraged people to think about things. Compared with a lot of TA's I've had Chris is definitely amongst the best!

211708: Christopher West is very funny and I really enjoyed his lab. He had weird diatribes about hipsters, but this was a very good lab.

COMMENTS/FEEDBACK

43) Please provide any additional comments or feedback.

237331: Chris was awesome to have as a TA. Very knowledgeable and very helpful. I honestly learned a lot because of him.

244553: Very good TA. If I had a question about understanding a sample I was given many explanations about how it may form and other features. Was very friendly and easy to talk to. Chris was always ready to help me and would try to find a new way to explain a concept if I had trouble. He wouldn't give out an easy answer and really challenged me to think hard about the material. I can't say it enough, really excellent instructor!!

COMMENTS/FEEDBACK

43) Please provide any additional comments or feedback.

253611: This was an excellent lab. The instructor was really great at teaching the material. I only wish he was a little faster on marking assignments. He was always willing to sit down with me though and go over material or answer my questions. I wish Chris taught the lecture too!

253627: Christopher West is incredibly knowledgeable about the subject and was always willing to answer any fossil questions I might have and opening the lab for us before the lab exam was extremely helpful for studying. Great!!
